

**Chapter 8.32  
NOISE CONTROL**

---

**Sections:**

[8.32.010 Loud and unnecessary noise prohibited.](#)

[8.32.020 Types of loud and unnecessary noises.](#)

[8.32.030 Stationary noise limits.](#)

[8.32.040 Permits for amplifying devices.](#)

**8.32.010 Loud and unnecessary noise prohibited.**

It is unlawful for any person to make, continue or cause to be made or continued any loud and unnecessary noise. (Prior code § 11-2-8(a))

**8.32.020 Types of loud and unnecessary noises.**

The following acts are declared to be loud, disturbing and unnecessary noises in violation of this chapter, but this enumeration shall not be deemed to be exclusive:

- A. **Horns—Signaling Devices.** The sounding of any horn or signaling device on any automobile, motorcycle or other vehicle on any street or public place in the city for longer than three seconds in any period of one minute or less, except as a danger warning; the creation of any unreasonable loud or harsh sound by means of any signaling device and the sounding of any plainly audible device for an unnecessary and unreasonable period of time; the use of any signaling device except one operated by hand or electricity; the use of any horn, whistle or other device operated by engine exhaust and the use of any signaling device when traffic is for any reason held up.
- B. **Radios—Phonographs—Similar Devices.** The using, operating or permitting to be played, used or operated any radio receiving set, musical instrument, phonograph or other machine or device for the producing or reproducing of sound in a loud and unnecessary manner. The operation of any set, instrument, phonograph, machine or device between the hours of ten p.m. and seven a.m. in a manner as to be plainly audible at the property line of the building, structure or vehicle in which it is located shall be prima facie evidence of a violation of this section.
- C. **Loudspeakers—Amplifiers for Advertising.** The using, operating or permitting to be played, used or operated of any radio receiving set, musical instrument, phonograph, loudspeaker, sound amplifier or other machine or device for the producing or reproducing of sound which is cast upon the public streets for the purpose of commercial advertising or attracting attention of the public to any building or structure. Announcements over loudspeakers can only be made by the announcer in person and without the aid of any mechanical device.
- D. **Animals—Birds.** The keeping of any animal or bird which by causing frequent or long continued unnecessary noise.

- E. Steam Whistles. The blowing of any steam whistle attached to any stationary boiler except to give notice of the time to begin or stop work or as a warning of fire or danger or upon request of proper city authorities.
- F. Exhausts. The discharge into the open air of the exhaust of any steam engine, stationary internal combustion engine or motor boat except through a muffler or other device which will effectively prevent loud or explosive noises therefrom.
- G. Construction or Repair of Buildings. The erection (including excavation), demolition, alteration or repair of any building, as well as the operation of any pile driver, steam shovel, pneumatic hammer, derrick, steam or electric hoist, or any other similar equipment attended by loud or unusual noise, other than between the hours of seven a.m. and ten p.m. on weekdays; provided, however, the building inspector shall have the authority, upon determining that the loss of inconvenience which would result to any party in interest would be extraordinary and of such nature as to warrant special consideration, to grant a permit for a period necessary within which time such work and operation may take place within the hours of ten p.m. to seven a.m.
- H. Schools—Courts—Churches—Hospitals. The creation of any excessive noise on any street adjacent to any school, institution of learning, church or court while in use, or adjacent to any hospital, which unreasonably interferes with the normal operation of that institution, or which disturbs or unduly annoys patients in the hospital provided that conspicuous signs are displayed in those streets indicating a school, hospital or court street.
- I. The provisions of this chapter shall not apply to:
  1. Any vehicle of the city while engaged in necessary public business;
  2. Excavations or repairs of streets or other public construction by or on behalf of the city, county, [or] state at night when public welfare and convenience renders it impossible to perform such work during the day or when the public works committee finds it is in the city's best interest to allow such work to proceed on weekends and/or between the hours of ten p.m. and seven a.m.;
  3. The reasonable use of amplifiers or loudspeakers in the course of public addresses which are noncommercial in character.

*(Ord. 396, § 1, 2-3-2009; prior code § 11-2-8(b))*

### **8.32.030 Stationary noise limits.**

#### **A. Maximum Permissible Sound Levels.**

1. Noise from a stationary source shall not exceed the following standards for maximum sound pressure levels measured at the property line.

Zone	Noise Rating Daytime	Noise Rating Nighttime
Residential	60 db	50 db
Commercial	70 db	70 db
All Other Zones	75 db	75 db

2. Ambient noise is the all-encompassing noise associated with a given source, usually being a composite of sounds with many sources near and far, but excluding the noise source being measured. Ambient noise is a factor and the subject noise shall exceed

the ambient noise by 5db in any octave band to be designated excessive.

3. Pure tones and impulsive noises are factors. Five noise rating numbers shall be taken from the table in Section 8.32.030(A)(1), if the subject noise consists primarily of a pure tone or if it is impulsive in character.
- B. Construction Noise. Construction equipment in any zone may be operated between the hours of seven a.m. to seven p.m. provided that such equipment does not exceed a maximum sound pressure level of eighty (80) db(a) measured at the property line of the location at which such equipment is in use.
- C. Noise in Residential Districts. In residential zones, the person in violation of this chapter shall be ordered to reduce the sound pressure to acceptable levels immediately by the monitoring officer.
- D. Operation of Certain Equipment. Lawnmowers, chainsaws, powered garden equipment, electric insect killing/repelling devices, and other nonconstruction maintenance equipment shall be operated only during the hours between seven a.m. and nine p.m. unless within the specified noise levels measured at the property line of the location at which such equipment is in use.
- E. Exemptions. Operation of emergency equipment shall be exempt from this chapter. Snowblowers not operated on a commercial basis shall be exempt from this chapter when used to gain access to a city street. Emergency equipment shall include ambulance, police, fire, snow removal, civil defense sirens, etc., necessary for the health, safety, and protection of the citizens of the city.
- F. Methods of Measuring Noise.
  - a. Equipment. Noise measurement shall be made with a sound level meter.
  - b. Location of Noise Meter. Noise measurement shall be made at the nearest lot line of the premises from which a noise complaint is received. The noise meter shall be placed at a height of at least three feet above the ground and at least three feet away from walls, barriers, obstructions, and all other sound reflective surfaces.
- G. Appeals. The common council may grant an exemption to individuals proving evidence of substantial hardship. Evidence that reasonable technological attempts have been made to correct the problem shall be considered grounds for granting an exemption to this chapter for existing industries.

*(Prior code § 11-2-8(c))*

### **8.32.040 Permits for amplifying devices.**

- A. Permit Required. The use of loudspeakers or amplifying devices on the streets or in the parks of the city is prohibited unless the party desiring to use such loudspeaker or amplifying device first obtains a permit from the chief of police.
- B. Grounds or Reasons for Denial or Allowance. The chief of the police department shall have the authority to revoke such permit when he believes such loudspeaker or amplifying device is becoming a nuisance because of the volume, the method in which it is being used, or the location in which it is being operated.
- C. Time Restrictions. The chief of the police department shall not grant a permit to use a loudspeaker or amplifying device before the hours of nine a.m. or after nine p.m. Nor shall a permit be granted to anyone who, in the opinion of the chief of police, uses such loudspeaker or amplifying device in such a manner or for such a purpose as to constitute a nuisance.

*(Prior code § 11-2-8(d))*
